Please comment on the section leader's knowledge and presentation of the material and how well he/she coordinated the sections with lectures.

Strengths

Definitely knew the material. As the course of the quarter progressed, Andre seemed to take a more active concern in helping students to learn.

Suggestions for Improvement

Overall, I got the impression that Andrey wasn't particularly concerned whether students learned the material or not and that this was because he felt that students were either smart or dumb, and if they were dumb then they just weren't going to get it and thus there wasn't much point in helping them. As an example

of this, when asked questions in section or office hours, he would often give a very short and minimal response, and be very unenthusiastic about elaborating or giving more explanation to help students understand, or checking to make sure that they understood. But, like I said, it did feel like as the quarter progressed that this began to change and improve a bit, and Andrey was more willing to put some effort into helping students understand the material, and in being willing to work with them until they did come to understand it. It was nice that he asked for mid-quarter feedback.

Please comment on the section leader's effectiveness as a discussion leader, his/her ability to answer questions and keep the discussion on track.
